#### What's New in the Makeup Secrets?

Want a sharp eye and a subtle, more natural lip? It's all about making the right choice! As a 21-year-old makeup fanatic, I started an online makeup school with my sister and work as a full-time freelance makeup artist. We soon realized that there is a need for a simple guide that explains, in an easy-to-read style, how to choose the best makeup techniques and products to enhance your daily makeup and achieve the natural look. That's why we developed Makeup Secrets, a practical tool that comes in the form of a digital book that contains useful and easy-to-use explanations on how to improve your daily makeup to look stunning yet natural. The perks of being portable Due to the fact that it's a compact book that doesn't need an installation, it means it can be carried on an external drive and opened on any computer, whether you are home or at your friends. It doesn't leave any files behind once it's been removed, nor consumes too much space. Despite the bright and annoying background, which can't be changed to any other color, the reading is made smoothly and swift. To not strain your eyes too much due to the intense color, it's advisable to take short breaks. Quick access to the table of contents It's interface is user-friendly and accessible to everyone, displaying a toolbar with commands at the top of the window. From there you can easily navigate through the pages, go back to the home screen, as well as increase and decrease the font. The table of contents has a separate menu for you to choose what chapter you want to study. You can conduct simple searches in the entire book, and toggle to full-screen for a better reading. Easy and concise composition Regarding the content, the subtitles are written in bold to stand out, while the explanations are plain and to the point. They are composed in a way that everyone could understand what's being described, making it easier to follow in real life. Sadly, the text can't be copied to the clipboard and used in your personal beauty blog or website, nor exported to plain or rich text. The bottom line Taking everything into account, Makeup Secrets is a handy and easy-to-use application that comes bundled with useful and simple tips on how to enhance your daily makeup and how to highlight different face parts, like lips, eyes or cheeks. Description: In the 1980s, makeup became the ultimate feminine tool. Today, makeup is still associated with women - but it's not just about beauty anymore. Makeup is a
